## About Us

Neighbourhood Toy Stores of Canada (NETS) is a network of retailers, manufacturers and sales agents that work together to provide quality specialty-toy and children's products in communities across Canada.

Individually, each retail member is dedicated to being a superior source of new and innovative quality products for local children of all ages.

As a group, we share the values of customer service and community involvement, and look for ways that our collaborative network can be of benefit to Canadian families.

## Share the Joy of STEM + STEAM Learning

Inquiring minds want to know – and learn – and create! “STEM” stands for science, technology, engineering and math – disciplines that play a role in every part of our lives.

STEM learning nurtures creators, doers, thinkers, problem solvers, innovators, and inventors. Toys that promote STEM learning gives children the opportunity to build a solid foundation and interest in those disciplines in many fun and entertaining ways.

A close cousin to STEM is “STEAM”, which adds art and, by extension, creativity to round out the areas of learning.
